SERVICE AREAS

Food, gasoline, oil and repairs are provided for Turnpike travelers at three convenient service areas on the Sunshine State Parkway. Restaurant service is provided by Hot Shoppes Caterers, Inc., at all three service areas.

Service Area No. 1 is just north of the J. N. McARTHUR Interchange at Ft. Lauderdale. Vehicle and restaurant services are available. Service stations are operated by Phillips Petroleum and Cities Service.

Service Area No. 2 is between the Lake Worth and West Palm Beach Interchanges. This service area has a large restaurant and offers vehicle service facilities. Service stations are operated by American Oil and Texaco.

Service Area No. 3 is between the Stuart and Fort Pierce Interchanges. Vehicle and restaurant services are available. Service stations are operated by Sinclair and Atlantic Refining.

WHEN YOU NEED HELP

1. FIRST, pull completely off the pavement and park on the shoulder. DO NOT park on the median, or center strip.

2. Tie a white cloth or handkerchief to your radio antenna, or raise the hood of your vehicle. Then, get back in the vehicle. DON'T TRY TO FLAG OR STOP TRAFFIC.

3. Your distress signal shows others you are in trouble and asks them to report that you need assistance. Through the turnpike's communications network, a radio-dispatched rescue vehicle will be on the way in a short time. Naturally, when you see a white flag or raised hood, please do your motoring neighbor a favor by notifying a service station attendant, toll collector or Highway Patrol Trooper.

4. You are permitted to make your own repairs, if you choose. But, for safety's sake, be certain your vehicle is clear of the pavement.

Please help us keep the Sunshine State Parkway clean. Throwing trash on the turnpike can result in a fine or imprisonment.

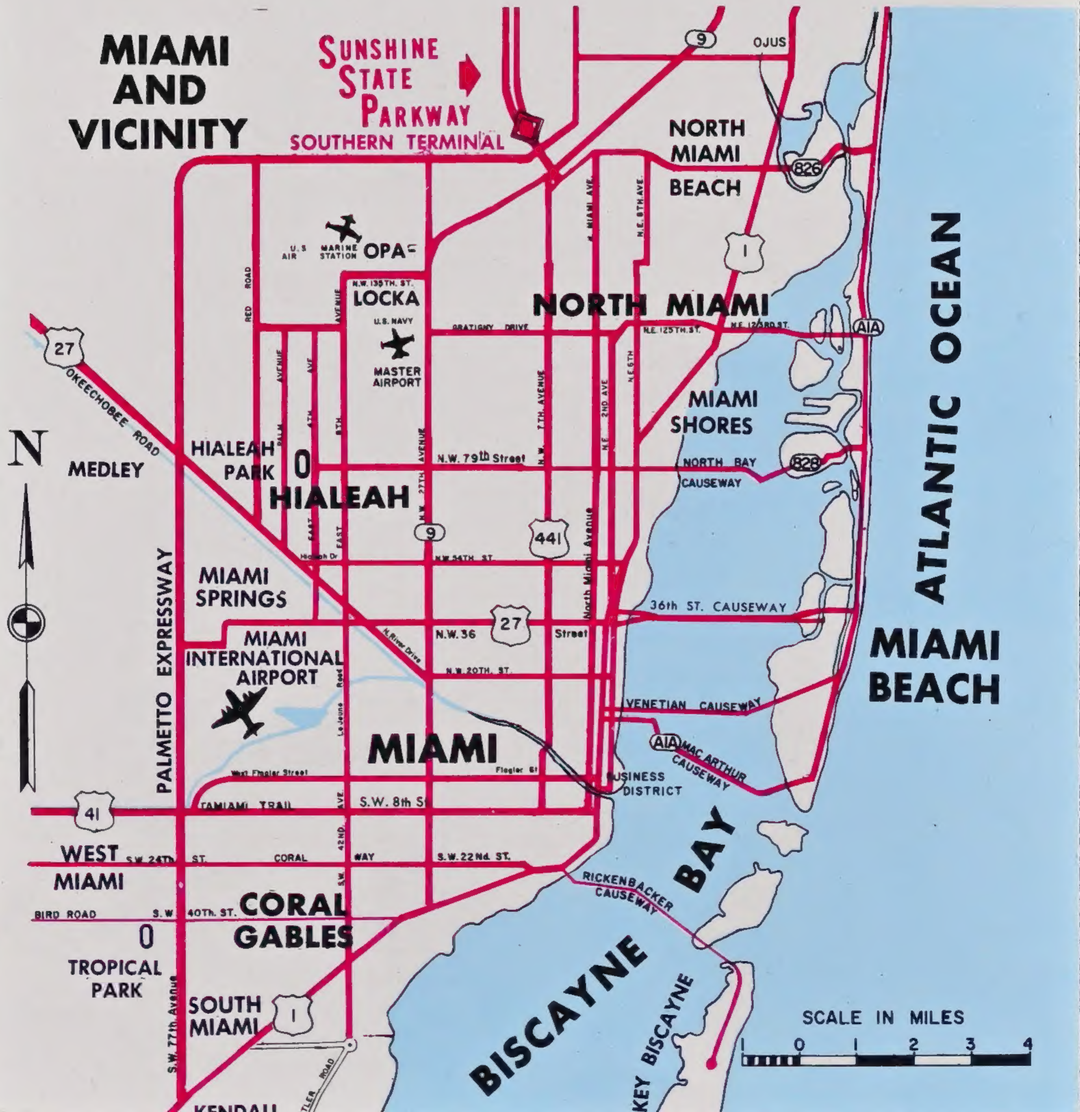
RULES AND REGULATIONS


- Maximum speed limit for all vehicles is 65 miles per hour when conditions permit. Minimum speed limit is 40 miles per hour. Special speed limit zones are posted. Reduce speed in rain, smoke or fog.
- Keep to the right, except when passing. Pass on the left only.
- Do not stop on pavement. In case of emergency or driver fatigue, pull completely off the pavement and park on the right shoulder.
- No parking, crossing or driving is permitted on the center median strip.
- No U Turns are permitted at any time or location.
- No pedestrians or hitch-hikers are permitted.
- These rules and regulations are enforced for your safety in addition to the Florida Motor Vehicle Code and other laws relating to motor vehicles in the State of Florida.
